PERSONAL

Mike Szczepanik has been with GEMKO Information Group, LLC. since 2007. GEMKO is an I.T. and Business Consulting Firm that emerged from an accounting firm; presently affiliated with the Top 30 nationally ranked CPA firm, The Bonadio Group.

STRENGTHS

Mike's core strength is his fluency in a number of different programming languages and operating systems. His extensive knowledge of the technological realm is a major asset to our team.

EXPERIENCE

Michael Szczepanik is a Programmer & Analyst specializing in the development of business applications on multiple technology platforms. Michael has experience working in IBM i (AS/400) environments performing both development and administrative tasks. He has been with GEMKO for 12 years, establishing lasting relationships with clients and developing internal solutions for the company.

RESPONSIBILITIES

Michael's responsibilities center mainly around on-site activities, including system upgrades and scheduled maintenance check-ups. He regularly works with customers to ensure a solid understanding of the implemented systems and is constantly developing operations to ease GEMKO's business operations, i.e. :

- Developed automated workflow process to assemble and email documentation packets containing structured and unstructured data.
- Developed online public ticketing application integrated with DB2 on IBM i.
- Developed intranet and extranet business applications on IBM i, Linux, Windows.
- Developed inventory management system with IBM DB2 Web Query.
- Created custom form template system to generate PDFs substituting data into Microsoft Word templates.
- Developed custom iPad application to manage outside sales activities.
- Web enablement of legacy RPG/IBM i applications.

EDUCATION

Mike attended the University of Buffalo for Computer Science. He has been interested in technology from a young age, and began programming at 9 years old. He is fluent in several programming languages, including: PHP, SQL, RPG (III, IV, ILE), HTML, Java, JavaScript, Ajax, CSS, JQuery, C#, C++, Objective C, Unity, and UE4. He is also an expert in Windows, Linux, IBM i, and iOS Operating Systems, as well as IBM DB2 Web Query/ Business Intelligence, Network Management, IBM i Maintenances (PTF/CUM), IBM i Operating System Migrations/Upgrades, IBM Power HMC/LPAR Management, RVI / Document Imaging Software, Infor APLUS ERP Software, and Custom RPG Based Software.

INTERESTS

Michael's love of technology extends to his personal interests, and he uses his expansive knowledge in video game development. Outside of work-related activities, Mike is a lifelong musician, playing guitar, saxophone, and piano, and has toured with different bands. He is also an audio engineer, running his own recording studio, as well as a light designer.
